STARTRACKER SYSTEM OPTIONAL ACCESSORIES

*(Some accessories and system listed below are included as STANDARD EQUIPMENT on some models. Check telescope specifications to avoid duplications). A wide range of optical system and accessories are available for **STAR TRACKER** SYSTEM Telescopes, Permitting an unlimited opportunity for the advanced amateur for serious research. Each accessory is a part of an integrated system, attaches easily and directly to the instruments described. Once you have a STANDARD **STAR TRACKER** / SKYWATCHER-India / GSO / KONUS-Italia / ORION-USA or Bresser-German Telescope. You can update your telescope with optical system accessories later as and when the need arises. This means your investment is well protected and your telescope will never be out dated. **Starscope** Telescope accessories and parts can be used on a wide variety of special purpose / home -made telescope or optical system. **Starscope** parts have been used in the constructions of thousands of privately built telescopes.*
